CALENDAR PLAN
Of the discipline **Partial removable denture technology**, for students of the second year,
spring semester, academic year 2021-2022

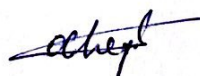

Nr. d/o	The Topic	Lectures		Practice/ Seminars	
		# Hours	Date	# Hours	Date
1.	Partial removable prosthesis with metallic framework. Elements of the prosthesis clasps. Artificial teeth, saddles, main connectors, secondary connectors, the elements of maintenance, support and stabilization.	1	07.02.2022	3	07.02.2022
2.	Elements of maintenance, support and stabilization. The main and auxiliary.	1	14.02.2022	3	14.02.2022
3.	Clinical and technical stages of the partial removable prosthesis clasps. Preliminary impression of the prosthetic field. Realization of the preliminary model.	1	21.02.2022	3	21.02.2022
4.	Clinical aspects of the prosthetic field. Definitive or functional impression. Making the casts. Test control.	1	28.02.2022	3	28.02.2022
5.	Surveyor. The study of the model on the surveyor. The metallic components of the partial removable prosthesis with metallic framework.	1	07.03.2022	3	07.03.2022
6.	Preparing the duplicate model. Folding and duplicating the wax pattern.	1	14.03.2022	3	14.03.2022
7.	Modeling the wax pattern of the metallic component.	1	21.03.2022	3	21.03.2022
8.	Techniques in making the metallic frame. Performing the printing. Casting.	1	28.03.2022	3	28.03.2022
9.	Unpacking. Machining, grinding and polishing The metallic components. The partial removable prosthetic with metallic framework on the model. Test control.	1	04.04.2022	3	04.04.2022
10.	Partial removable prosthesis. Components.	1	11.04.2022	3	11.04.2022
11.	The limits of the denture base. Anchoring elements. The technique of making the wipe wire clasps.	1	18.04.2022	3	18.04.2022

Nr. d/o	The Topic	Lectures		Practice/ Seminars	
		# Ho urs	Date	# Ho urs	Date
12.	Making templates with occlusal rims for recording centric maxillo-mandibular relations.	1		3	
13.	Determination of centric intermedia or centric occlusion relations. Simulators and molding of models. Test control.	1	16.05.2022	3	16.05.2022
14.	Mounting the artificial teeth in the acrylic removable prosthesis.	1	23.05.2022	3	23.05.2022
15.	Partial removable prosthesis layout sample. Final modeling.	1	30.05.2022	3	30.05.2022
16.	The technique of packaging the prosthesis layout. The polymerization. Unpacking. Processing and polishing the prosthesis.	1		3	
17.	Partial removable injectable prosthesis. Test-control .	1		3	
Total		17		34
